Professional Summary

Full Stack MERN Developer with 1.5 years of experience building web applications from small projects to business level platforms. Skilled in both frontend and backend development, with a focus on creating clean user interfaces, handling complex layouts, and optimizing APIs for performance. Quick to learn new technologies and experienced in working with cross functional teams to deliver reliable solutions.

Skills

Frontend: HTML, CSS, JavaScript, React.js, Next.js, TypeScript, Tailwind CSS, Bootstrap

Backend: Node.js, Express, JWT, Mongoose, MongoDB

Tools: Git, GitHub

Experience

Fullstack Mern Developer • Full-Time

Apr 2025 – Present

Technoholic Advance Solutions

Karachi, Sindh

- Contributed as a fullstack developer to a real time property management platform (Digital Tenant), building interactive frontends, secure backend APIs, and handling robust data flows.
- Integrated Stripe and PayPal for payments, including checkout, refunds, and webhook handling.
- Collaborated with the team to connect and test APIs, ensuring consistent data handling.
- Improved search performance with input debouncing, reducing unnecessary API calls and making the app feel faster.
- Added Google Maps Autocomplete for addresses, helping users avoid mistakes and improving accuracy.
- Enhanced property listings with Google Static Maps, which made them more engaging and useful for users.

Fullstack Developer • Contract

Oct 2024 – Mar 2025

Unique Advertisers

Karachi, Sindh

- Worked as a fullstack developer for a service based company, handling both frontend and backend development independently.
- Improved an AI Music Distribution Platform by optimizing MongoDB queries, speeding up API responses, and fixing React TypeScript issues, making the platform faster and easier to use.
- Rebuilt the company's official website with React and Tailwind CSS, improving load speed, mobile responsiveness, and overall user experience.
- Worked with UI/UX designers to build responsive and visually consistent designs across devices.

Frontend Developer • Internship

Feb 2024 – Sep 2024

Arc Inventador

Karachi, Sindh

- Worked with designers and backend developers to build real world projects in a fast paced team environment.
- Developed dynamic UI components such as profile pages and cart pages using React.js and Tailwind CSS, which improved the look, usability, and loading speed of the websites.

Education

Intermediate Pre.Engineering

Aug 2022 – Aug 2024

Adamjee Science College

Karachi, Sindh

Certifications
